

The Digital Shredder of the 21st Century

Fast Operation —

- ◆ Under 18 seconds per disc
- ◆ Speed: Settings from 90-340 discs per hour

High Level Of Security —

- ◆ Technology process results in digital data 100% beyond forensic recovery
- ◆ Information layer is ground to 250 microns
- ◆ Evaluated by the NSA and meets the requirements of NSA/CSS 04-02 for Optical Media Destruction
- ◆ Meets the requirements of the RCMP for listing in the G1-001 Security Equipment Guide (SEG) as an approved device for the destruction of all Classified and Protected information on optical media
- ◆ Meets NIST SP 800-88 standard for Optical Disc Destruction
- ◆ HIPAA, FACTA, Sarbanes-Oxley and Gramm-Leach-Bliley compliant

Environmentally Safe —

Periodically remove Dust Collector Bag and dispose of discarded materials safely

Easy To Use And Low Cost —

- ◆ Push button operation and less than \$0.01 per disc for permanent and safe destruction.
- ◆ Compatible with CD, DVD, & Blu-ray Disc

Replaceable Parts —

Cutter and Dust Bag Replacement parts every 500 - 1000 discs.

Patented Technology —

US patents 5,954,569, 6,039,637, and 7,134,940. Other US and PCT patents pending.

The DX-CD2™ is the newest generation

of CD-ROM and DVD destruction devices produced by the industry leader in the field of data destruction. This product is designed with the high-security sector in mind and follows the high quality standards we have used for the past few years in our Department of Defense (DoD) product line. The DX-CD2™ design specification requires the data layer of optical drives to be ground to 250 microns - eliminating forensic recovery of data by any known means. The DX-CD2™ incorporates two speed options: Setting one is defaulted to an 18 sec cycle time or @ 180 discs per hour. Setting two is programmable upon request to permit from 90—340 discs to be destroyed per hour. The DX-CD2™ is lightweight, quiet enough for an office environment, safe, clean, and inexpensive to operate.

For less the \$0.01 per disc, your organization can be assured that your digital information has been permanently and safely destroyed. With the looming liability forced upon us by the Economic Espionage Act, the Gramm-Leach-Bliley Act, and HIPAA regulations, any person or company that does not properly dispose of digital records faces a major liability. Join thousands of customers who sleep at night knowing their digital records are no longer in use and can never be used again.

SPECIFICATIONS*

**Specifications subject to change without notice*

Weight:	2.5 kg	Height:	110 mm
Width:	222 mm	Length:	317 mm
Power Supply:	110 volts, 60Hz, 65W	220 Volt, 50 HZ Power	Option Available

Optional Manual DVD Splitter available

**SECURELY AND PERMANENTLY DESTROY
DIGITAL INFORMATION ON CD-ROMS!**
