- 35 PPD for super clear vision.
- Variable refresh rate (72Hz, 90Hz, 120Hz) provides smooth gameplay.
- Manually adjustable IPD (58-72mm).
- Local dimming delivers vibrant, true-to-life colors.
- Foveated Rendering: Fixed 2.0.
- Headset with two controllers
- Easy setup with inside-out tracking or expand with Lighthouse tracking.
- Audio: interchangeable 3.5mm jack, 2x microphone.

## Pimax Crystal/Crystal Light Lighthouse Faceplate

- The Lighthouse Faceplate is an add-on for the Pimax Crystal series headsets (exclude Crystal Super), designed to enable high-precision external tracking. Instead of using the built-in cameras on the headset, it relies on external base stations (Lighthouses) for improved accuracy and a wider range of movement. Base stations are required for the Lighthouse Faceplate to function.

- The Lighthouse Faceplate integrates with SteamVR setups and is compatible with Pimax Sword controllers, Index Knuckles controllers, HTC VIVE controllers, VIVE Tracker (1.0/2.0/3.0), and Tundra Tracker.

**Note:** This lighthouse faceplate is compatible with Pimax Crystal, Crystal Sim, and Pimax Crystal Light, but not compatible with Crystal Super.

## Lighthouse Basestation 2.0

Now with wide-area tracking, Base Station 2.0 powers the presence and immersion of room-scale virtual reality by helping VIVE Pro series or Cosmos Elite headsets and controllers track their exact locations. Features wireless syncing.

- Includes two base station and one power adapter per order
- Fits standard threaded mounting points
- Cord: 2.5m(8'2")
- Up to 1000 sq. ft\*

\*Compatible with the following products:

- VIVE Pro Series
- VIVE Cosmos Elite– requires VIVE Controller (2018)

- PIMAX Crystal Light 2023-2025

\*Compatible with the following accessory:

- VIVE Cosmos External Tracking Faceplate
- PIMAX Crystal Light Face Plate (included)

\*Up to 10m x 10m(33' x 33') using four base stations. Up to 5m x 5m(16'5" x 16'5")

Skywin VR Tripod Stand, Base Station Mount, Compatible with Steam VR Base Station 2.0, Oculus Rift Constellation (2 Stands)

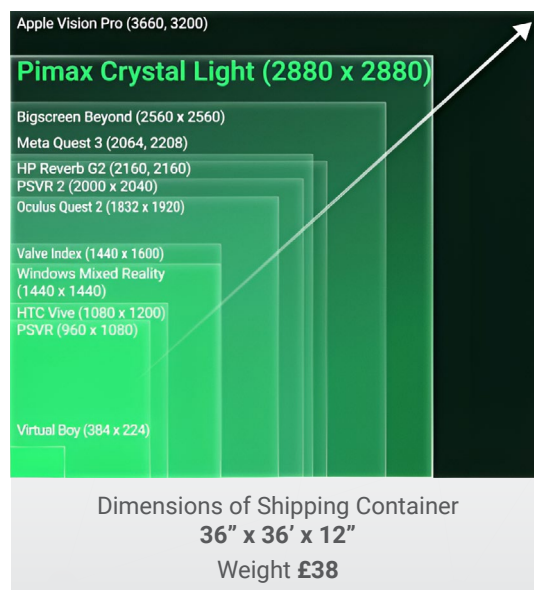

SARLAR VR Stand, Display Holder for Oculus Meta Quest 3/ Quest 3S/Quest 2/PS VR2/Vision Pro/ Valve Index/PIMAX Crystal/Crystal Light Headset and Touch Controllers Accessories

Here's a comparison table showcasing two dominant lenses in VR context: Pancake lenses and Aspheric lenses.

	PANCAKE Quest 3, Quest Pro	ASPHERIC Pimax Crystal, Varjo Aero
Design	Thin, compact design with layers of curved material.	Single, curved glass surface, no rings.
FOV	Narrower FOV	Wide FOV with sharp edges.
Comfort	Comfortable with less strain.	High comfort with no distortion.
Weight	Lightweight and compact.	Slightly heavier.
Cost	Medium price.	More expensive.
Distortion	Suffer from glare and god rays.	No distortion, excellent contrast and clarity.
Light Passthrough	Block up to 90% of the light.	Offer a light passthrough of about 99%
